MEMORANDUM FOR: Director of Communications
Director of Information Technology
Director of Security

FROM: William F. Donnelly
Deputy Director for Administration

SUBJECT: NTISSC Recommendations

1. The NTISSC recently issued its second report pertaining to the security of telecommunications and automated information systems. The executive summary of that report has been reproduced and is enclosed with this memorandum. Pages 7 through 11 of this summary contain recommendations designed to reduce the vulnerabilities in U.S. communications and automated information systems.

2. These recommendations are aimed at the U.S. Government in general, not particularly the intelligence organizations therein. However, I believe that each of the recipients of this memorandum should be aware of these recommendations and should take steps to insure that where they apply to us we are doing something to implement them. By 1 January 1988 I would like to receive a brief memorandum from each of the addressees commenting upon these recommendations--to the extent that they apply to us--and conveying to me how we stand with respect to each of them.

3. I urge that the directors of the three offices involved coordinate their responses to me.
